**To Whom It May Concern: Certificate of Compliance
California Proposition 65**

Alliance Memory is committed to restricting the use of substances known to be hazardous to human health and the environment. We continuously monitor the safety, health and environmental regulations impact on the usage of products we manufacture.

California's Proposition 65 entitles California consumers to special warnings for products that contain chemicals known to the state of California to cause cancer and birth defects or other reproductive harm if those products expose consumers to such chemicals above certain threshold levels.

We hereby declare that, based on reviews of supplier's certification and material declaration, to the best of our knowledge under normal usage, Alliance Memory products are in compliance with **California Proposition 65** – *The Safe Drinking Water and Toxic Enforcement Act, 1986*). Although some of our products may contain Proposition 65 substances, there is no exposure route such as contact with skin, food/drink, or inhalation. Alliance products are not intended to cause user exposure to any contained substances and are not intended to discharge substances during normal product use. Therefore, the Prop 65 "clear and reasonable" warnings requirements do not apply to Alliance Memory products.

In completing this response, we confirm that we have reviewed and considered the list of chemicals, entitled **California Proposition 65** Chemical List. The Proposition 65 chemical list can be found at: <http://oehha.ca.gov/proposition-65/proposition-65-list>

A handwritten signature in black ink, appearing to read 'David Reedy', is written in a cursive style.
